

Guest Wi-Fi Access @IITK

Step1: Search "iitk-guest" network in wireless network.

Step2: Connect "iitk-guest" network.

Step 3: Go to your browser and enter any valid url. You will be redirected to Smartguard Login Page as shown in image below:

The image shows a mobile browser interface for the Smartguard Guest Wifi login page. The address bar displays "172.31.1.81/indexmain.php". The page has a header "Guest Wifi" and a sub-header "Guest Wifi". Below this, there is a "Getting Started" section with two columns of text: "Please fill OTP to get Internet Access." and "Please fill the following details to get OTP." The form includes fields for "Enter OTP", "Name", "Email ID", "Country" (a dropdown menu currently showing "INDIA"), "+91", and "Mobile No". There are two orange buttons: "Login" and "Get OTP".

Step 4: If you are not a registered member, then please register using the form shown at right side of the image shown above. You will be sent an OTP on your mobile through SMS. Step 5: Use this OTP to access the internet connection. Don't close the tab as shown below:

Step 6: You can only use this OTP for ten days. You will need to generate new OTP after ten days to continue using internet connection. Please also note that the OTP generated above can be used upto three devices at a time.
